

2015 RESEARCH REPORT: BUSINESS AND NON-PROFIT EDITION National Survey on STEM Education

Table of Contents

Introduction	1
Executive Summary.....	4
Key Findings	4
Implementation of STEM Education in Core Curriculum: Currently and by Next Year.....	6
Elementary School STEM Implementation.....	6
Middle/Junior High School STEM Implementation	7
High School STEM Implementation	7
STEM Courses Currently Offered and Likely to Be Implemented by Next Year	8
Alternative STEM Programs Offered	9
Access to Digital Tools for Science/STEM Instruction	9
Priority Objectives for Students in Science/STEM Courses	11
Priority Experiences for Students in Science/STEM Education.....	11
Science Standards	12
Overall Impression of the <i>Next Generation Science Standards</i>	12
Strategy for Using Science Core Curriculum to Address New Science Standards.....	12
Top Priorities in Seeking New Instructional Resources for New Standards.....	13
Most Important Challenges Facing STEM Education	13
Teacher Professional Development for STEM Education	13
Ways of Providing Teacher Professional Development	14
Most Critical Professional Development Topics	14
Funding Priorities.....	14
Funding Priorities for Improving STEM Education	14
Funding Priorities for Mobile Computing Devices.....	15
Likely Change in Spending on STEM Education Next School Year.....	15
Funding Sources for New STEM Education Initiatives	16
Findings in Detail	17
Respondents' Roles in Science/STEM Education.....	17
Education Levels for Which Respondents Were Responsible.....	18
Analysis by Role in K-12 Education	19
Status of State Science Standards	20
Overall Impression of the <i>Next Generation Science Standards</i>	21
Analysis by Role in K-12 Education	22
Analysis by Education Level.....	23
Analysis by Status of State Science Standards.....	24
Implementation of STEM Education in Core Curriculum in Elementary Schools	25
District-Level Science/STEM Supervisors.....	25
Elementary School Science/STEM Staff.....	27
Comparing District-Level Science/STEM Supervisors and Elementary School Science/STEM Staff	28
Analysis of Status of State Science Standards.....	29
Implementation of STEM Education in Core Curriculum in Middle/Junior High Schools	30
District-Level Science/STEM Supervisors.....	30
Middle/Junior High School Science/STEM Staff	31
Comparing District-Level Science/STEM Supervisors and Middle/Junior High School Science/STEM Staff.....	32
Analysis of Status of State Science Standards.....	33
Implementation of STEM Education in Core Curriculum in High Schools	34
District-Level Science/STEM Supervisors.....	34
High School Science/STEM Staff.....	35
Comparing District-Level Science/STEM Supervisors and High School Science/STEM Staff.....	36
Analysis of Status of State Science Standards.....	37
Aerospace Engineering Courses Currently Offered and Likely to Be Implemented by Next Year	38
District-Level Science/STEM Supervisors.....	38
Analysis by Education Level.....	39
Analysis by Status of State Science Standards	39

Table of Contents

Continued

Agricultural Science Course Currently Offered and Likely to Be Implemented by Next Year	40
District-Level Science/STEM Supervisors	40
Analysis by Education Level	41
Analysis by Status of State Science Standards	42
Biomedical Technology Course Currently Offered and Likely to Be Implemented by Next Year	43
District-Level Science/STEM Supervisors	43
Analysis by Education Level	44
Analysis by Status of State Science Standards	44
Career and Technical Education Programs Currently Offered and Likely to Be Implemented by Next Year	45
District-Level Science/STEM Supervisors	45
Analysis by Education Level	46
Analysis by Status of State Science Standards	47
Civil Engineering Courses Currently Offered and Likely to Be Implemented by Next Year	48
District-Level Science/STEM Supervisors	48
Analysis by Education Level	49
Analysis by Status of State Science Standards	49
Computer Science/Programming Courses Currently Offered and Likely to Be Implemented by Next Year	50
District-Level Science/STEM Supervisors	50
Analysis by Education Level	51
Analysis by Status of State Science Standards	51
Energy and the Environment Course Currently Offered and Likely to Be Implemented by Next Year	52
District-Level Science/STEM Supervisors	52
Analysis by Education Level	53
Analysis by Status of State Science Standards	53
Intro to Technology Course Currently Offered and Likely to Be Implemented by Next Year	54
District-Level Science/STEM Supervisors	54
Analysis by Education Level	55
Analysis by Status of State Science Standards	55
Robotics Course Currently Offered and Likely to Be Implemented by Next Year	56
District-Level Science/STEM Supervisors	56
Analysis by Education Level	57
Analysis by Status of State Science Standards	57
Alternative STEM Programs Offered	58
Analysis by Role in K-12 Education	60
Analysis by Education Level	61
Analysis by Status of State Science Standards	62
Priority Objectives for Students in STEM/Science Courses	63
Analysis by Role in K-12 Education	64
Analysis by Education Level	65
Analysis by Status of State Science Standards	67
Priority Experiences for Students in STEM/Science Education	68
Analysis by Role in K-12 Education	69
Analysis by Education Level	71
Analysis by Status of State Science Standards	72
Challenges Facing STEM Education	74
Analysis by Role in K-12 Education	76
Analysis by Education Level	77
Analysis by Status of State Science Standards	79
Funding Priorities for Improving STEM Education	81
Analysis by Role in K-12 Education	83
Analysis by Education Level	85
Analysis by Status of State Science Standards	86
Funding Priorities for Mobile Computing Devices	88
Analysis by Role in K-12 Education	90
Analysis by Education Level	90
Analysis by Status of State Science Standards	91
Likely Change in Spending on STEM Education Next School Year	92
Analysis by Role in K-12 Education	93
Analysis by Education Level	94
Analysis by Status of State Science Standards	94
Funding Sources for New STEM Education Initiatives	95
Analysis by Role in K-12 Education	97
Analysis by Education Level	97
Analysis by Status of State Science Standard	98

Table of Contents

Continued

Grants from Private Sources to Fund New STEM Education Initiatives.....	100
Access to Digital Tools for Science/STEM Education in the Upper Elementary Grades (Grades 4 and Up).....	100
Access to Digital Tools for Science/STEM Education in Middle/Junior High Schools.....	102
Access to Digital Tools for Science/STEM Education in High Schools	104
Strategy for Using Science Core Curriculum to Address New Science Standards	106
Analysis by Role in K-12 Education	108
Analysis by Education Level.....	108
Analysis by Status of State Science Standards.....	111
Top Priorities in Seeking New Instructional Resources for New Standards.....	112
Analysis by Role in K-12 Education	113
Analysis by Education Level.....	115
Analysis by Status of State Science Standards.....	117
Ways of Providing Teacher Professional Development	118
Analysis by Role in K-12 Education	120
Analysis by Education Level.....	120
Analysis by Status of State Science Standards.....	121
Most Critical Professional Development Topics for New Standards	123
Analysis by Role in K-12 Education	125
Analysis by Education Level.....	126
Analysis by Status of State Science Standards.....	128
Appendix	129
